Shady Fire Update

Heber City, Utah, July 23, 2010 – Uinta-Wasatch-Cache National Forest fire personnel have transitioned with the Chipeta Wildland Fire module to continue monitoring the Shady Fire. The 20-acre lightning-caused fire was discovered on July 19, 2010 and is being managed to improve wildlife habitat and reduce hazardous fuels.

There has been little smoke coming from the interior of the fire, however, smoke may be visible for several weeks. Fire crews will post signs and provide information to visitors throughout the July 24th weekend about the fire.

There are no closures in effect for this area.
